Professional Summary

Results-driven Cloud Engineer with 5+ years of experience in designing, deploying, and managing cloud-based solutions. Proficient in AWS, Azure, and Google Cloud Platform (GCP), with expertise in containerization, automation, and security. Passionate about optimizing cloud architectures for scalability, performance, and cost-efficiency.

Technical Skills

Cloud Platforms: AWS (EC2, S3, Lambda, VPC), Azure, GCP

Containerization & Orchestration: Docker, Kubernetes, ECS, EKS

Infrastructure as Code (IaC): Terraform, CloudFormation, Ansible

Scripting & Automation: Python, Bash, PowerShell

CI/CD & DevOps: Jenkins, GitHub Actions, GitLab CI/CD

Security & Compliance: IAM, VPN, VPC, SOC 2, ISO 27001

Monitoring & Logging: Prometheus, Grafana, CloudWatch, ELK Stack

Work Experience

Cloud Engineer

XYZ Tech Solutions | San Francisco, CA | Jan 2021 – Present

Designed and implemented highly available cloud architectures on AWS and Azure, improving system uptime by 99.9%.

Developed Terraform-based Infrastructure as Code (IaC), reducing manual provisioning time by 60%.

Automated CI/CD pipelines using Jenkins and GitHub Actions, accelerating software releases by 40%.

Secured cloud environments by optimizing IAM policies, implementing VPC security best practices, and ensuring SOC 2 compliance.

Led cloud migration projects, reducing operational costs by 30% through workload optimization.

DevOps & Cloud Engineer

ABC Software Inc. | New York, NY | May 2018 – Dec 2020

Managed and optimized Kubernetes clusters for scalable microservices architecture.

Developed Python scripts for cloud automation, improving deployment efficiency by 50%.

Integrated monitoring tools (Prometheus, Grafana, CloudWatch) for real-time performance insights.

Worked with developers to implement serverless solutions using AWS Lambda, reducing costs by 25%.

Education

Bachelor of Science in Computer Science

University of California, Berkeley | 2014 – 2018

Certifications

AWS Certified Solutions Architect – Associate (2022)

Microsoft Certified: Azure Solutions Architect Expert (2021)

Google Professional Cloud Architect (2023)

Projects

Automated Cloud Deployment System: Developed a Terraform-based AWS provisioning system, reducing deployment time by 70%.

Kubernetes Monitoring Dashboard: Created a Grafana-powered dashboard to visualize cluster health and performance.

Additional Information

Languages: English (Fluent), Spanish (Intermediate)

Interests: Open-source contributions, cloud security, tech blogging
